▶ **Isaac Vases, Set of 2**

Isaac's fine porcelain set has been molded by hand to create expressive tulip-inspired forms. Delicate in nature, each vase features a waterfall reactive glaze — an almost celadon hue with metallic luster — that enhances the deep curvature of its façade. Gather them on a tabletop or console to showcase blooms or add slight shimmer to a space.

▲ **Grisha Centerpiece**

When designing the Grisha, we looked to hand-weaving techniques long practiced in many cultures across the world. Each centerpiece is crafted by artisans who mold thin bendable rattan into this unique concentric form. Natural and black-stained rattan make this an ideal addition to tablescapes in natural settings. Finish will vary.
